NEWS AND VIEWS...

And What Have You

By BOB CRAIG

It was not surprising when we picked up our copy of the Andrews County News the other day and read where Publisher James Roberts was giving those "Damn Yankees" fits about our present energy problems. His column follows:

The energy shortage in this country is summed up rather well with three headlines that appeared in the newspapers yesterday.

One headline declared that ten oil companies in Texas and Louisiana had been accused of withholding gas back from the marketplace.

A second headline noted that a Brooklyn judge had declared the federal leases for offshore drilling in the Atlantic Ocean null and void.

The third headline quoted the head of the EPA as feeling that the immediate energy crisis was over.

We should have known that Texas was going to be blamed for the shortage one way or another.

In the report blaming oil companies for withholding gas, it was admitted that the report was made by staffers in the Department of Interior.

The report was developed by a six-man investigative team whose sources for their findings were understood to be documents compiled from public records. One source close to the investigative team said the team did not visit the fields in the Gulf of Mexico and did not talk to the companies leasing the fields.

We can't help but wonder if the FPC staffers are now going to investigate the federal judge in Brooklyn who ruled that the Department of Interior did not heed environmental law when they granted rights for drilling in the Atlantic.

U. S. District Judge Jack B. Weinstein rescinded the sale of the drilling rights to 39 oil companies on the grounds that Thomas Kleppe, when he was interior secretary, violated the national environmental policy act in the way he allowed the sale.

The judge ordered a halt to any activity involving off-shore drilling in the ocean.

The interior department had leased to the oil companies for \$1.1 billion the right to explore in the Baltimore canyon 45 to 90 miles offshore in the Atlantic.

The judge declared the leases null and void. Effect of the ruling will probably delay any offshore development of the Atlantic coast for another two or three years.

It seems to us that Texas and Louisiana have gone all out to supply the needs of the country to

The addition will principally be an east wing to the present plant of the hospital that will also be the main entrance. Offices of the staff doctors and clinical laboratories, operating room, delivery room and emergency room will also be in the new wing, several of these being moved from the old portion. Patient rooms will be remodeled from these present locations.

The count of votes was 743 to 237, or about three to one for the issue.
More than \$80,000 has been appropriated by the Texas Highway Commission for straightening, widening and otherwise improving the 19-mile stretch, but it was necessary for the county to furnish the right-of-way.
Bids on the \$80,000 education building addition to the First Baptist Church will probably be called for next week, declared the pastor, Rev. Calvin Bailey, Tuesday.

the full extent of their capabilities.
Yet the states of New York and Pennsylvania have proven reserves of both oil and gas that can be extracted with expensive recovery methods.
And the Atlantic Ocean still awaits development for oil and gas.
Yet rather than try to crank up and try to alleviate the shortage of oil and gas in this country by trying to produce and develop sources in the northeast, all those people up there can do is figure out new ways to blame Texans.
One of these days we're going to wise up down here and figure out ways to get the attention of the Northeast by simply shutting off all the lines leading out of the state.
Then we can really have an investigation.

The TIE that Binds...

Man and woman began their married life in church and according to God's holy word are joined together. With the Bible as the basis for the beginning of a new life together, it seems only reasonable that a continued study of God's word would strengthen and serve as a guide to any couple. The Bible can truly serve as a tie that will bind two together in accord. The church as God's agency on earth can help you in Bible study, and with the guidance of the Holy Spirit can help you to understand God's will in your life.

"And the Lord shall guide thee continually, and satisfy thy soul in drought, and make fat thy bones; and thou shalt be like a watered garden, and like a spring of water, whose waters fail not." Isaiah 58-11

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

By the time she's 39 we'll need 8.5 TRILLION kilowatt hours.

Five times as much electricity as we use today will be required by the turn of the century. Producing such a prodigious supply will be a difficult task for the people who generate our electricity. And it will be costly.

While we at The Cooperative are keeping distribution costs under control, the cost of producing power continues its upward spiral. The only present remedy for the pain of higher prices is conservation.

While "youth must be served" there's no question they will be served more dependably if conservation becomes a part of our lives as well as theirs.

Neinda Philosopher Asks A Fairly Pertinent Question About Congressional Pay Hikes

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One this week takes a much longer view of the new system of giving pay raises to Congressmen.

Dear editor:

A lot has been said lately about Congress' getting a big pay raise, from \$44,600 a year to \$57,500, simply by going home for the weekend and letting the raise occur automatically, as though it was done by the Tooth Fairy.

As I understand the way it works, an outside commission decides what a Congressman's pay ought to be and Congressmen then say "Aw shucks, you really think we're worth that much?" and are too embarrassed to vote

on it. Without a vote against it, the pay raise takes effect automatically, and all members can go back to their districts \$12,900 richer and truthfully say they didn't vote for any pay raise. This is known as the genius of politics.

Now it's not my job to say how much a Congressman is worth. What I'm interested in is the other end of this new system of setting his salary. I mean, what if we whip inflation? What if in a few years prices start coming down all along the line and the cost of living drops by 25 per cent? And recognizing this the fair-minded salary-setting commission decides a Congressman's pay should drop by 25 per cent? And if

Congress doesn't vote against it the cut goes into effect the next Saturday?

Will Congress adjourn and let the deadline pass without a vote, or will it stick around and stare the awful fact in the face? Will the thought triumph over conscience?

I won't hazard a guess, but I can't help but think about the price of meat. When the price of a steer on the hoof goes up, the price of a steak at the supermarket goes up. When the price of a steer goes down, the price of a steak stays the same. When the price of a politician on the hoof goes down, will the price of a Congressman in Washington stay the same?

Yours faithfully,
J.A.

Mr. and Mrs. Ellis Ford had as weekend visitors, her sister and husband, Mr. and Mrs. J. W. Riddle of Tyler. They also visited with Mrs. J. W. Riddle and Mr. and Mrs. W. H. Tabb of Boyds Chapel.

Visiting Mrs. Ray Ulmer over the weekend were her son Yuel of Hobbs, N. Mex. and her daughter and husband, Mr. and Mrs. Bernard Brumelow of Irving.

Local Girl Scouts Plan Activities for 'Week'

Girl Scout Week will be observed in Hamlin March 6-March 12, and local troops have several activities planned. All leaders, helpers and girl scouts will open the week by attending Nazarene Church services Sunday, March 6. Girls and leaders are urged to make a special effort to attend and worship in the new church. Girls should be at the church at 10:30 a.m.

Traditionally, during Girl Scout Week there are seven Service Days, each emphasizing a particular activity. Girl Scout Day is on Sunday, Homemaking Day is Monday, Citizenship Day is Tuesday, Health and Safety Day is Wednesday, International Friendship Day is Thursday, Arts Day is Friday, and Out-of-Doors Day is Saturday.

In honor of the 50th anniversary of the Juliette Low World Friendship Fund Girl Scouts this year will put special emphasis on International Friendship Day of the Girl Scout Week. In observance of this Golden Anniversary, an opportunity has been provided for all Girl Scout members to know about the Juliette Low World

Friendship Fund that each troop might contribute to the World Association of Girl Scouts and Girl Guides by giving to the fund.

A 1977 goal for the West Texas Girl Scout Council is to have each troop contribute to the Juliette Low World Friendship Fund. One hundred percent troop participation will make this Council eligible to apply to the special Juliette Low 50th Anniversary Recognition medal in commemoration of Council efforts to extend opportunities for international understanding to their membership.

All three Hamlin choirs received a superior rating from the judges, who are music majors at Hardin-Simmons University. These choirs are the Inspirations, grades 6, 7, and 8, Young Musicians, grades 3-5, and the Music Makers, grade 1 and 2. Also receiving superior ratings were soloists Teri Weaver and Shawn Slaughter and piano students, Laura Carter and Missy Hodges.

With Crippling Illness or Accident— Rehab Center Offers Major Program to Help Young Adults

A young adult who suffers a crippling illness or accident needs expert help regardless of his ability to pay for it.

So West Texas Rehabilitation Center at 4601 Hartford in Abilene has a major program for young adults, and they are a special group there as they and therapists work to rebuild their lives.

Mike Williams, a young machine shop employee in Abilene, and Monte Gardner, a fisheries research man from Clyde, are two of them.

Williams, 20, fell from a rooftop last September and broke his right leg above the knee.

"I was putting up a weathervane as a favor for a lady who was in the hospital," he said. "I fell off, and I joined her in the hospital."

He has been coming to the Center to rebuild his leg and work the stiffness from his knee since the cast was removed seven weeks ago.

Gardner, 36, a fisheries technician for the Texas Department of Parks and Wildlife, broke both femurs or thigh bones in a horse-riding accident last Aug. 31.

"We hit a tree, and the tree came out the best," he said. He came to the Center December 28 in a wheelchair and now is walking with crutches and slowly regaining his mobility.

"Without a place like this, I don't know where I'd be today," he said. "Probably still in a wheelchair."

Patsi Albert, a young married woman from Abilene, and Gary McLane, an oil field worker from Denver City, are also starting their lives over again at the Center.

Mrs. Albert, 23, and her husband Paul were moving to Abilene from Orlando, Florida, last March 10 when their pickup truck went out of control and smashed up near Lake Charles, La.

She suffered compression fractures of her spine and was paralyzed completely for two days and was in hospitals for 50 days in Lake Charles and Abilene.

Doctors told her she had only one chance in 100 ever to walk again.

She came to the Rehab Center last May and has been walking with a cane and back brace for the past five weeks.

"The Rehab Center and those people out there are just fantastic," Mrs. Albert said. "They will bend over backwards to talk to you and help you."

She mentioned her therapist, Dolores Poyner, and the director of patient services, Bill Snowden, as instrumental in her continuing recovery.

McLane, 23, was going through an intersection in Denver City last Sept. 17 when the motorcycle and car were in collision and he suffered almost fatal injuries.

He had a broken leg and shoulder, a broken finger and severe head injuries which left him in a coma for 25 days in a Lubbock hospital.

Couples Attend Banking Meet In Mexico City

Mr. and Mrs. Joe E. Ford and Mr. and Mrs. Cecil L. Sellers were among 200 bank directors from 25 states who recently attended the Twenty-seventh Assembly for Bank Directors in Mexico City.

Leading bankers and economists from the United States and Mexico discussed bank director functions, the financial environment and the Mexican and U.S. economies at the Assembly, which was sponsored by the Foundation of the Southwestern Graduate School of Banking at Southern Methodist University in Dallas.

B. Finley Vinson, chairman of the board, First National Bank, Little Rock, Ark., and director of the Twenty-seventh Assembly, along with a faculty of 44 bankers, lawyers and regulators, conducted the sessions and seminars.

Julio Rodolfo Motezuma Cid, Secretary of the Treasury of Mexico, spoke on the Mexican economy and the programs of the new administration of President Jose Lopez Portillo at a luncheon.

Legislative Newsletter . . .

By Elmer Martin
State Representative

The Texas Legislature is now in full swing and under the leadership of House Speaker Bill Clayton, the House of Representatives is putting in long hours both in session and in committee meetings in an effort to make the 65th Legislature one of the most productive sessions ever.

HIGHWAY FUNDING

Already, the House has passed Governor Briscoe's emergency legislation concerning highway funding. This bill passed the House by a vote of 121-27.

This legislation would pump \$561.2 million into the highway fund during the 1978-79 biennium.

Under House Bill 3, the State Highway Fund would receive three-fourths of all of the revenue derived from the motor vehicle sales tax, in addition to all of the other sales, excise and use taxes which are attributable to the sale and use of parts and accessories for motor vehicles.

Over the next five years, the Governor's bill would dedicate an estimated \$1.6 billion to the highway fund.

This bill gained quick passage through the House as an emergency measure due to the backlog of needed highway projects which can never be completed under the present funding level.

Pending passage of this bill in the Senate, this legislation would be enacted on September 1, 1977.

AGRICULTURE

One of the major bills passed out of the House Agriculture and Livestock Committee, of which I am a member, was House Bill 22, concerning taxing agricultural land on the basis of its productivity rather than its market value.

I was glad to co-sponsor this bill, which implements a system of separate assessment of open-space land devoted to farm, ranch and timber purposes.

This legislation will bring the farmer and rancher an equitable amount of tax money based on a real and identifiable use of the land rather than a speculative use.

The "agricultural use" of land as defined in this bill means the raising of livestock or the growing of crops, fruits, flowers and other products of the soil under natural conditions as a business venture for profit, in which the business is the primary occupation and source of income for the owner.

An amendment was passed on the House floor which would exclude large corporate farms from benefiting from the provisions of this act and limited the bill to individuals and small corporations, with no more than ten stockholders, estates and trusts.

Under this bill, the Comptroller of Public Accounts is given the authority to develop rules and guidelines for the assessing of open-space land devoted to farm, ranch and timber purposes.

The income capitalization rate to be used in determining the value of open-space land shall be ten per cent or an amount equal to two per cent greater than the variable interest rate specified by the Federal Land Bank of Houston for the preceding tax year, whichever amount is greater.

Each year the owner wishes to qualify his land under the provisions of this act as designated for

agricultural use, he shall file with the local taxing authority a sworn statement in writing describing the use to which the land is devoted.

The owner of the open-space land must sign a sworn affidavit that the land has been used for open-space purposes for the last five years. If the land changes, then the taxes equal to the rate assessed for market value, plus five per cent per year, shall be assessed for the previous four years.

This act will take effect, pending passage in the Senate, January 1, 1978, providing the proposed amendment to Section 1.0, Article VIII, Texas Constitution, relating to the appraisal of land for ad valorem taxation is adopted.

EDUCATION

I have sponsored a bill with Rep. Charles Finnell which will allow schools to be closed in times of crisis. This act, House Bill 1035, would allow the commissioner of education to approve the operation of schools for less than the required 180 days, plus ten days of in-service training and preparation, when disasters, floods, extreme weather conditions, fuel curtailments or other calamities cause the closing of schools.

Due to the energy crisis and fuel curtailments which our area, along with other parts of our state and nation have

THURSDAY, MARCH 3, 1977, PAGE 5

been experiencing, I feel this bill will alleviate the burden which has been placed on our schools, which have had to remain open in inclement weather for fear of loss of state funds.

Mr. and Mrs. Oran Taylor attended the opening of the new Security State Bank in Abilene Sunday and visited with Mr. and Mrs. Leldon Clifton.

Mrs. Jacky McComack and Shanna have been visiting with her parents, Mr. and Mrs. Troy W. Collins, and with her husband's parents, Mr. and Mrs. A. T. McComack during the past month. They will return to Heilbronn, Germany, Sunday where SSgt. McComack is stationed.
